

Sending money to your account

FOR OFFLINE ACCOUNTS ONLY. If you wish to transfer money to your eSavings account please see our eSavings Frequently Asked Questions page which you can view from your Account Summary page once logged in.

We can all become confused when trying to send money to our accounts; do we use SWIFT, CHAPS or BACS?

These options can be simplified by using the guide below. Please ensure your bank quotes your name and account number on all payments as failure to do so may lead to delays or payments being returned.

When your money is in transit between banks, it's important that our bank account is listed first in the instructions, with your BBI savings account details given as the Reference. This is necessary as we are not a clearing bank and so need to use their services to transmit and receive funds. Once we receive your funds, we can then use your reference/account number to apply your funds as quickly as possible. New customers please be advised that no account numbers will be issued until we have received the required ID documentation.

* These timescales depend on the whether the remitting bank uses the corresponding bank system or not. If so, they may take longer.

Why not download our electronic funds transfer form from our website to use in future - or ask one of our team to send you a supply. This form contains all the information, including codes and account numbers for your bank to use when sending your money to your BBI account.
